The Camera Assistant's Manual

The first assistant camera is in charge of the camera department. During a shoot, the 1st AC is responsible for keeping the camera in focus. This gave rise to the name focus puller. They are in charge of the maintenance and care of all cameras.

Camera Crew Breakdown: Jobs and Responsibilities

The 1st AC is a mid-senior level crew position in the camera department but one of the most skilled jobs on set. They report directly to the DP or camera operator and are often requested...

First Camera Assistant Job Description + Info | Backstage

A focus puller or first assistant camera (1st AC) is a member of a film crew 's camera department whose primary responsibility is to maintain the camera lens's optical focus on whatever subject or action is being filmed. "Pulling focus" or "rack focusing" refers to the act of changing the lens 's focus distance setting in correspondence to a moving subject's physical distance from the focal plane, or the changing distance between a stationary object and a moving camera.

Focus puller - Wikipedia

Camera assistants (or first and second ACs, as they're known) have the important job of maintaining the camera, readying it for use, troubleshooting (such as knowing what to do when a camera stops working), and preparing it for transport.
