Exhaust Systems - Walmart.com

The exhaust systems with crush bends are usually cheaper because the technique used in bending the exhaust pipe is the same used in bending the original one produced in the factory. The bending doesn't take time and doesn't cost much so the final price of exhaust systems with crush bends is also less.

Best Exhaust System (Review) 2020 - Top Picks & Buyer Guide

Exhaust systems release the toxic fumes produced by engine during internal combustion. The exhaust process starts with the manifold, which collects exhaust gases from the engine. These gases then pass through the catalytic converter, which reduces the toxicity of these gasses. After that, the exhaust gasses then pass through a series of pipes.
