Paper Animal Movable Body Parts

Body parts are ready to be attached to the body. Make holes for the arms, legs and head from the inside of the body, just like before. Turn to the right side. This is Penelope's right arm and the remaining 2 parts of the cotter pin joint. 1 small washer & 1 disc.

Tutorial--How To Make Movable Joints In A Stuffed Animal ...

Print all the patterns and cut them out. Make the details of the body out of green cardboard and a comb — out of yellow. Punch the places marked with dots and fasten the parts of the body with rivets — a head and a neck, a neck and a body, a body and the first part of the tail and so on. All the details should be jointed in the same way.

Originally, all books were in manuscript form. In China, and later other parts of East Asia, woodblock printing was used for books from about the 7th century. The earliest dated example is the Diamond Sutra of 868. In the Islamic world and the West, all books were in manuscript until the introduction of movable type printing in about 1450.
