### **Preference Learning 1st Edition - vitaliti.integ.ro**

Abstract. Preference learning refers to the task of learning to predict (contextualized) preferences on a collection of alternatives, which are often represented in the form of an order relation, on the basis of observed or revealed preference information.

### **Preference Learning | SpringerLink**

Preference learning is a subfield in machine learning, which is a classification method based on observed preference information .In the view of supervised learning, preference learning trains on a set of items which have preferences toward labels or other items and predicts the preferences for all items.. While the concept of preference learning has been emerged for some time in many fields ...

### **Preference learning - Wikipedia**

This book stems from more than 25 years of systematic research into the experience of learning undertaken by a research team trying to account for the obvious differences between more or less successful instances of learning in educational institutions. The book offers an answer in terms of the discovery of critical differences in the structure of the learner's awareness and critical ...
