### Psychology Of Women

Female psychology is that of yin, male psychology is that of yang. Men and women compliment one another, with their energies, their efforts, and their strengths. I think 99% of miscommunications in relationships stem from this fact. Men are direct, women are indirect. Men are logical, women are emotional.

### Female Psychology: What Women REALLY Want - YouTube

The dominance of male thinkers on lists of important pioneers in early psychology certainly makes it seem that way, but the reality is that women have been contributing to psychology since its earliest days. Estimates suggest that in the early 1900s, roughly 12% of psychologists in the United States were women. However, many of these pioneering women in psychology faced considerable discrimination, obstacles, and difficulties.
