Classical elements typically refer to earth, water, air, fire, and (later) aether, which were proposed to explain the nature and complexity of all matter in terms of simpler substances. Ancient cultures in Greece, Ancient Egypt, Persia, Babylonia, Japan, Tibet, and India had all similar lists, sometimes referring in local languages to "air" as "wind" and the fifth element as "void".

Four Elements Symbolism. The ancients believed the World to be composed of 4 basic elements - Fire, Water, Air, and Earth. These were considered the critical energy forces that sustained life. All

of these elements are integral parts of matter or the physical universe, and the human body is a physical creation existing in the material realm.

Four Elements Symbolism - Ancient Symbols

The ancient Greeks believed that there were four elements that everything was made up of: earth, water, air, and fire. This theory was suggested around 450 BC, and it was later supported and added to by Aristotle.

The Four Elements of Matter: Earth, Water, Air, Fire

The element of wood is associated with spring, a time of birth and new beginnings. "The wood element refers to living, growing entities: trees, plants and the human body," writes Elson M. Haas, MD, in *Staying Healthy With the Seasons* (Celestial Arts, 2003), his classic book about integrative medicine first published in 1981.

Five Elements for Five Seasons - Experience Life

The elementals whose domain is the water element are known as undines. These beautiful, supple mermaid-like beings are subtle and swift in their movements and can change form rapidly. The undines control the tides and have much to do with the climate as well as oxygenation and precipitation.

Nature Spirits - Elementals of Fire, Air, Water and Earth

The Elemental Changes is made up of three types of lines: - (a single long line, yang) corresponding to Heaven - - (once broken line, yin) corresponding to Earth - - - (twice broken line, yin) corresponding to Man.

Timeline of chemical element discoveries - Wikipedia

Nature spirits which include elementals are believed to be various types of beings or spirits which inhabit Nature. The belief in their existence was almost universal in the ancient era of religions which embodied animist religion. This belief still exists among many people who believe that all things possess life, which is especially true among most occultists and Neo-pagan witches.
